CAREER OBJECTIVE

Motivated Computer Science undergraduate proficient in Python, Django, Java, HTML, CSS, and JavaScript with a strong foundation in software development. Passionate about web development, Generative AI, and solving real-world problems through technology. Eager to learn, collaborate, and contribute to impactful engineering projects.

SKILLS

- Languages: Python, Java
 - Framework: Django, Flutter (Basic)
 - Web: HTML, CSS, JavaScript
 - Database: MySQL, Firebase
 - AI/Tools: Gen AI, LLM, RAG, Git/GitHub
-

EDUCATION

Government Engineering College, Hassan 2023-2027

- BE in Computer Science
- CGPA: 7.77/10.0

SSPU College chadachan 2021-2023

- PCMB
 - Percentage: 89%
-

PROJECTS

Deep Space Communication Simulator [Major Project]

- Python, AI/ML, Data Visualization
- Developed a simulator to model deep-space communication by analyzing signal transmission, propagation delay, noise, and data loss between spacecraft and ground stations.
- Implemented real-time communication metrics and visualization to evaluate signal quality, latency, reliability, and overall system performance

GenAI Dataset Advisor [Hobby Project]

- Python, GenAI, Pandas, Streamlit.
 - Developed a GenAI-powered tool that automatically analyzes CSV/Excel datasets to identify missing values, duplicates, outliers, inconsistent data, and quality issues.
 - Implemented AI-driven data-quality recommendations and interactive visualizations to help users understand and improve dataset quality.
-

CERTIFICATION

- TCS YEP- Industry Ready Certification
 - Getting Started with Artificial Intelligence (IBM)
 - Python Course Completion – IntrnForte (IntrnForte)
 - Data Science vs Machine Learning vs Artificial Intelligence – Masterclass Scaler
-

LANGUAGES

- English, Kannada, Hindi
